About Gymnastics Australia

As the peak governing body for gymnastics in Australia, Gymnastics Australia (GA) is a not-for-profit member-based organisation with a Federated operating model supported by its State and Territory Associations. Gymnastics in Australia includes the disciplines of Acrobatics, Aerobics, Gymnastics For All, KinderGym, Parkour, Men's Artistic, Rhythmic, Trampoline, and Women's Artistic. Each discipline is governed and supported by a National Commission comprised of voluntary technical experts and community leaders. GA provides national frameworks, participation and competition pathways for each gymnastics discipline; as well as delivering national and international events; and providing training and professional development for the gymnastics workforce.

Providing services to 500+ clubs, 7000+ accredited coaches and judges, 800,000+ participants, and gymnastics fans, the GA team is comprised of gymnastics experts, sport management and business leaders. With the head office located in the thriving sports precinct at Albert Park in Melbourne, GA also hosts National Training Centres at the Australian Institute of Sport in Canberra and in Brisbane that work to facilitate high performance pathways and support Australian gymnasts to compete at international benchmark events including World Cups, World Championships, the Commonwealth Games and the Olympic Games.

Vision - An inspiring gymnastics experience for every Australian

Mission - Gymnastics Australia grows the gymnastics community by fostering wellbeing and excellence in everything we do.

"This new role will focus on how risk is managed and how safety is promoted within our sport; developing programs that protect and service the gymnastics community nationally."

Jade Peace, General Manager Corporate Service

Coordinator, Sport Safety & Risk

The Coordinator, Sport Safety & Risk is responsible for safeguarding Gymnastics Australia's future, with a focus on providing strategic risk management, fit for purpose insurance solutions and expert safety guidance for stakeholders. This role contributes to an ongoing and specialised need for fostering a culture of safety, risk awareness and resilience to protect the gymnastics community, including the assets and reputation of Gymnastics Australia.

This role will be instrumental in developing an integrated sport safety program and educating the gymnastics community on best practice for risk management and insurance claim procedures. The annual procurement process for the national insurance contract as part of the National Risk Protection Program is also coordinated by this role.

The Coordinator, Sport Safety & Risk reports to the General Manager, Corporate Services and is a key member of the Corporate Services team, which provides operational and administrative support for the entire organisation. Providing strategic support and expertise to not only keep business on track, but innovate for future success, this team is committed to delivering exceptional support services to all stakeholders, fostering an innovative and collaborative approach to project work, ensuring accurate and timely financial operation and delivering business efficiency and effectiveness through process improvement and technology adoption. This role will engage with the Risk Committee and work across the organisation to ensure risk is managed appropriately and safety is promoted across the sport.

To be considered for this role you will have demonstrated experience in insurance and risk management (including analysis and implementation of framework for identification, assessment and reporting requirements), ideally from within a sport or recreation environment.

Candidates must have strong people and communication skills, with the ability to work collaboratively and swiftly to build relationships and trust with GA staff and the wider gymnastics community; capable of translating corporate risk management standards into the world of sport.

Whilst practical experience in managing insurance claims, incident investigation and/or WHS regulations is highly advantageous; more important is the ability to manage your time effectively, planning and delivering multiple programs and projects consecutively whilst maintaining a tenacious level of attention to detail, and a safety-first approach.

This is an exciting opportunity to help 'raise the bar' on safety in a role where precision, balance, and duty of care take centre stage.
